

National Management Strategy for Motorized Off Highway Vehicle Use On Public Lands

Strategy Distribution Update

The BLM's "National Management Strategy for Motorized Off Highway Vehicle Use On Public Lands" (OHV Strategy) was signed by Acting Director Sylvia Baca on January 19, 2001. On the same day, the Strategy was published on the BLM's National website, www.blm.gov. It is currently accessible from a "headline" link on the homepage, and is available in both Adobe Acrobat (pdf) and Word Perfect format.

The public is encouraged to access the web version, and field offices are encouraged to provide copies or help members of the public obtain copies if they are unable to obtain the web versions.

Margy Tidemann from the Worland, Wyoming Field Office was the writer/editor on the project, and will be overseeing the printing and distribution of the final printed versions which should be available by mid-February.

Between the original comment period, and the review of the draft document, we received almost 20,000 comments. Instead of printing copies for all respondents, we have opted to send a letter to each member of the public who responded informing them that the strategy is available on the web, and providing them with a post card printed version request form. All members of the BLM Resource Advisory Councils (RAC's) and will automatically receive a printed copy. Please contact Jim Keeler at (202) 452-7771 if you wish to have copies sent to specific members of the public.

Each BLM State Offices will receive 100 copies, which will be for distribution at the State Office and the field offices, for staff use, and distribution to the public on request. Additional copies can be requested from the Washington Office as needed. Copies will be sent to State Offices addressed to the Public Affairs Officer, but should be shared with State Recreation Staffs, and with the Field Offices.
